

proaxia Achieves “Expert” Competency in Supply Chain Management from SAP

SPREITENBACH, Switzerland — November 15 2022 — proaxia consulting group ag today announced that it has achieved an “Expert” competency designation in Supply Chain Management.

Obtaining a competency provides businesses with transparency on the skills, expertise and maturity of a partner’s SAP practice in delivering customer success.

The Competency Framework is designed to boost focus on customer lifetime value and customer outcomes, helping companies to find the partner that best fits their digital transformation journey towards becoming an intelligent enterprise.

Partners at the expert competency tier have demonstrated exceptional customer success in Supply Chain Management. By earning this designation, proaxia is prepared to assist customers with end-to-end transformation projects with their proven experience working across the competency product portfolio and having developed unique solution capabilities in the specific area.

“For more than 10 years, we have delivered field service management (FSM) projects to customers all over the world with 10 to 1000+ Field technicians,” said Peter Brak, head of FSM Consulting at proaxia. The company’s certified consultants are proven experts in service processes and integration of FSM with SAP S/4HANA® with the FSM cloud connector developed by proaxia and licensed by SAP. In addition, proaxia enables action between customer self-service, customer service and field service across country and time borders.”

proaxia’s “expert” competency was granted based on the company’s demonstrated expertise and skills in competency area, including their related knowledge, proficiency and instances of customer success.

proaxia consulting group ag is a partner in the SAP® PartnerEdge® program. As such, it has access to tools, training, resources and benefits that partners need to deliver the solutions and services that customers demand.
